WELCOME TO HOLMES MANUFACTURING

The story behind Holmes Manufacturing begins back in 1984 when three men and a truck set out to install vinyl siding. The idea was to offer something different from our competitors, but the question was what. We began to focus on production efficiency. This timesaving pattern of thinking inspired us to constantly design and create new accessories ahead of time that would speed up installation on the jobsite. Much thought and ingenuity went into this pre-making of products, all of which helped improve our efficiency in installation.

The story doesn't end here. We realized that other contractors who were spending time and effort making their accessories on-site might have an interest in purchasing the line of products we designed, manufactured and kept on hand. That's how it came about that three men and a truck took their timesaving products to the local market.

What makes us unique? Simply this…we began as an install company and advanced into mass production, which means our products were designed and perfected by installers for installers. In the past our install company has worked on over 40,000 houses across Ohio. It was critical for us to have no callback or service issues, and our hands-on experience gave us the ability to design accordingly. At Holmes Manufacturing, our products have been time-tested to perform.

OUR COMMITMENT

Here at Holmes Manufacturing we are committed to providing you with the products you need, service that is better than you expect and the quality you deserve. We pride ourselves in our ability to service your everyday needs and our willingness to help with those small custom orders that are important to your customers.

Since 1984 we have continually expanded our product line by adding new products and colors. We work hard to stay connected to the needs of our customers. If you don't see a product in the catalog that is important to you, please let us know. We may have it available or see the need to add it to our offering. Your feedback is taken seriously and is important to us.

The aluminum window trim is available in 2 widths, 3-1/2″ and 5-1/2″. It comes in 10' lengths and can receive up to a ¾″ butt siding. It is designed to fit into the J Channel on a new construction window, which gives the window a nice clean appearance. It can also be used on windows without a J Channel by placing small pieces of starter strip around the window to hold the inside edge. It is available in all colors.

CUSTOM BENDING

With 30 years experience in manufacturing aluminum products, our slogan here at Holmes Manufacturing has become 'You draw it, we'll bend it'. Custom bent products are available upon request, from porch beam wraps and flashings of all types to special window trims. Our employees take pride in their ability to design and create custom bent products that exceed your expectations.

Metal Specifications
aluminum alloy - 3105 | hardness - H26-H28 | tensile strength - 28,000 psi
yield strength - 24,000 psi | gutter coil hardness - H24 | .024 coil hardness - H26

Metal Thickness
.019" nominal - soffit, fascia, accessories, and trim coil
.020" nominal - pvc trim coil
.024" nominal fascia and trim coil
.027" - gutter coil

Type of Coating
hybrid linear polyester

Gloss
Poly - 8 to 15 degree on 60 degree photovolt meter. ASTM test D523-80
PVC - 20-50 @ 60 degrees

Formability
No removal of finish with 610 Scotch tape on a 2T bend. NCCA test 11-19

Pencil Hardness
F-H

Dry Film Thickness
.60 - .80 mills

Humidity Resistance
no loss of gloss, cracking, or peeling after 1,000 hours in 100% relative
humidity

Salt Spray Resistance
withstands 5% salt spray for 1,000 hours per ASTM test B117-73

Impact Resistance
No visual cracking or Scotch tape pick-off when subject to impact in inch
pounds equal to 1.5 times metal thickness. NCCA test 11-6.

Exterior Exposure
Fade - shall not exceed more than 5 Color Difference Units within 5 years.
ASTM test D2244-79 Chalk. No great than No. 8 rating (excluding white)
within 5 years. ASTM test D659-74
